Government Watchdog Edition... to keep Your Family Informed about Many Concerning Bills

SCE has New Rates Per AB 205

All of my life, I've heard, "turn that light off! We don't need to spend more on electricity!"

But a new law, AB 205 says that using less electricity doesn't mean you will pay less. In fact, *if you are on the lowest tier of usage, \$24 will now be added to your bill to help pay someone else's bill!* Those with the highest bills will see their bills lowered. There you go! We are now monetarily encouraged to use more electricity! Should people

Chevron Fence

After battling the County about the homeless setting up shop on their property, Chevron has added a fence of protection. I've seen the Chevron owner be nice to the homeless there - he knew them by name!

But they treated him with disrespect. Would you put a fence around your property or let anyone who wanted too live on your grass and be disrespectful?

Support Chevron! Advertisers in this paper are part of why we can provide you with local news!

I had no intention of making this issue about *California bills that affect your family...* but the more I read the bills, the more I realized how much this could impact Highgrove. Please read it all!

See P. 2 to *protect Prop 13 or watch property taxes skyrocket every year...* Because Highgrove has empty land, bills like SB 130 & 131 & 79 are to speed up the process - and possibly allow for nine story. low-income apartments(!)

Avoid Center St. if you can until BNSF re-pairs the tracks again or risk vehicle damage...

The railroad tracks that we have gone over many times in the twenty two years we have lived here have just been "repaired."

But this time my husband's car bottomed out on the tracks on Center St. and he had to return home instead of work.(Both directions are dangerous and worth avoiding or slow way down!)

I have called BNSF (to no avail) and the Supervisor's office with a message for Araceli...

Supervisor Medina will continue to take suggestions for how we, the Highgrove Community, would like to spend the roughly \$700,000 in cannabis money.

Thank you for all the great ideas!

At the September MAC Meeting we got to see all these ideas and vote on two in each category.

Ideas are welcome until the end of the year.

Join us **Nov 19th for the next MAC meeting** if you'd like your chance to vote on the next series of ideas!

Keep Sending your ideas to: arruiz@rivco.org

Protect Prop 13

by joining us at: HJTA.org/saveprop13/

"I DON'T PAY ATTENTION TO POLITICS"
WELL, YOUR TAXES WILL JUMP!

"...Being ignorant about politics WILL cost you a LOT of money!"

We all pay property taxes, either directly as a homeowner, or indirectly as a renter. Before Howard Jarvis' Proposition 13 went into effect, property taxes were based on the current market value of a property, re-assessed each year. Back then, all the way back in 1978, over 47 years ago, the average State tax rate was 2.76%.

Prop.13, limited the annual increase to 2% of the initial assessed value, as long as you own your property. No re-assessments except for change of ownership, or new construction. It also capped the statewide property tax at 1%. If that wasn't in place, how high do you think the state property tax would be now, 47 years later? **Prop.13 saved you from huge annual increases.**

Prop.13 also enshrined in our state constitution that state tax increases would require a two-thirds vote in each house of the legislature. **THIS is why it is attacked every election cycle...**

Think of all of the real estate in California, and its current assessed value. Imagine being able to tax ALL OF THAT PROPERTY for 3% or more, re-assessed every single year. It's got to be in the billions of dollars. THAT is why the Democrats (yes, it IS a partisan issue) are always trying to find a loophole, or do away with Prop.13 altogether..."

who use less electricity be charged the extra to support those who can't afford it?

Should those who use more electricity pay less?

Everyone would like to pay less for electricity!

I had to laugh this morning as I told my spouse, "please shut out that light!" I laughed because now, if we use more electricity our bill might go down! As long as when we use more electricity, they don't say, sorry! No more power to charge our Teslas!

RAC Taught Me

You have always dreamed of this moment.

You step in the box with the game

on the line. Bases are loaded. Two outs. Down by a run. Full count.

You see the pitcher wind up. The runners are stealing on the pitch because it's a full count, and you see a fastball coming right down the middle.

You've dreamed of winning a game with a walk-off home run. You feel prepared for this moment, and even though you're nervous, you feel more excited than anything. You stay under control and take your best swing and... POP.

The fastball hits the catcher's mitt as you swing and miss and strike out to end the game.

You hold your bat in frustration for a second, but as you walk back to the dugout, you actually feel okay with it. Yes, you wanted that walk-off home run. But deep down, you feel a sense of peace. Because your identity isn't in your results.

You get back to the dugout and pack your things. And you go enjoy the rest of your day as if nothing happened. You get dinner with your family and play some video games.

Why? Because your identity isn't in baseball.

You go back to work in practice the next day working harder than everyone else because you love the game and you love the grind.

The next week you find yourself with the game on the line again. As you step up to the box, you remember VIVIDLY your last failure, but in this moment, you're not afraid to fail.

You see the first fastball on the way, and you get

Know the Other Bills Your Government is Up To

This is a list of California Bills recently introduced with their stated intent, possible concerns and if the bills become law, we can look forward to ***more crime, more apartments in areas with homes higher taxes and parental rights undermined.***

Here is **Newsom's Number** if you have thoughts for him. **916-445-2841 - 1 - 6 - 3 Leave Message**

AB 130 Intent: Limits public hearings and approval deadlines to ***speed up affordable housing development*** and protect developers from local rule changes. Concerns: favors developers over community input. Signed into law July 10, 2025.

SB 131 Article 3 inacts: Round 7 of the Homeless Housing, Assistance, and Prevention Program They called it a plan to "Boost Affordability" by exempting CEQA from certain housing and infrastructure projects like "homeless housing..., daycare centers... pollution risks ...seen as rushed to undermine what local homeowners prefer. Signed into law July 10, 2025. Read bill here: legiscan.com/CA/text/SB131/id/3259518 [***Editor's note: Guys... This may be what Planning is planning at California and Center. He said the preliminary EIR is all that is required on such "projects" - as proposed on California St. The law reads that, "... expand that exemption to include a right-of-way of a local street or road." (California St. would be such a road.) Should Highgrove residents be a "compliant" neighbor for "affordable housing" that could be nine story apartments for the homeless?***

Even if we agree to fewer floors. Is that what we want here? We had better be prepared to invest in people's lives or it could become a horror movie (and the only real change comes if they WANT to accept Jesus and change, IMO) Many homeless I have spoken with have chosen that life and do not want help. The government's offer of five hundred million dollars to build "affordable housing" (IF they spent 50% of the sixth round - how much are they spending FOR US?!) must be tempting to Planning, but is this the best thing for Highgrove?]

SB 79 Overrides local zoning to allow up to ***nine-story dense housing near transit stops in single-family areas. Homeowners fear neighborhood disruption and property value drops;*** opposed for overriding local control. On Governor's desk (pending decision by October 12, 2025).

AB 2240 Expands Medi-Cal coverage for undocumented immigrants, some view it as prioritizing non-citizens over residents. Signed into law September 24, 2024 (effective 2025). |

SB 969 (Senator Scott Wiener) Allows cannabis lounges/cafes in cities with under 96% vaccination rates to aid post-pandemic recovery. Are we being

punished for being allowed a choice on "medical interventions" like vaccines?! What about the youth having more access to drugs? Signed into law September 28, 2024 (effective 2025). |

AB 1955 Prohibits schools from outing students' sexual orientation/gender identity without consent. ***Limits parental rights;*** Signed into law (effective January 1, 2025). |

AB 2943 Eases aggregation of similar theft/drug crimes for felony charges to combat retail theft. | Reform advocates fear it ***erodes Prop 47 reductions; seen as politically motivated response to Prop 36.*** Signed into law August 2024 (effective January 1, 2025).

SB 771 Holds large social media platforms liable for civil penalties (up to \$1M per violation) if their algorithms amplify content that violates California's civil rights laws, such as threats, harassment, or intimidation based on protected characteristics (e.g., race, religion, gender, sexual orientation). ***Some argue it violates First Amendment rights, infringes on editorial discretion, and conflicts with Section 230 protections, potentially leading to over-censorship and chilling legitimate speech***

This is an egregious ***affront to free speech*** in the digital age. - Marty Bent

On Governor's desk pending decision by October 12, 2025; (operative January 1, 2027 if signed). ***You can still call against this!!!***

SB 1174 - Stops cities from requiring Voter ID

AB 144 Requires health plans to cover preventive care services (e.g., immunizations, screenings) without cost-sharing if recommended by federal bodies like the CDC as of January 1, 2025, or by the California Department of Public Health; empowers ***state to adopt vaccine schedules from medical societies instead of the CDC.*** Critics worry it ***gives the fox control over the hen house;*** inconsistent national standards; and insurers are concerned about added coverage mandates amid rising costs. Signed and effective immediately. |

SB 1123 Updates SB 684 (2023) to streamline ministerial (non-discretionary) review for small subdivisions ***creating up to 10 residential units on vacant lots in single-family zones*** near transit/jobs; promotes affordable housing ***without hearings.***

Homeowners oppose it for potentially altering neighborhood character and overriding local zoning; what about our traffic? Infrastructure? Signed into law September 19, 2024 (effective July 1, '25) **AB 549** Establishes the Resilient Rebuilding Authority for the Los Angeles Wildfires. Aims to finance and streamline rebuilding in wildfire-affected areas through bonds and streamlined...

Brain Health Part III - A LOGIC PUZZLE

Years ago, my favorite word games to play were not word searches or crossword puzzles, but classic logic puzzles! Let me know if you enjoy this and would like to try more!

Neighbors & Nibbles How to play:
Use the clues to determine which person owns which pet, lives in which house, and drinks which beverage. Mark for definite matches and × for impossibilities.

- Categories:
- People: Alice, Bob, Carol, David
- Pets: Dog, Cat, Fish, Bird
- Houses: Red, Blue, Green, Yellow
- Drinks: Tea, Coffee, Milk, Water
- Clues:
- 1) The person in the green house drinks milk
 - 2) Bob lives in the blue house.
 - 3) Alice owns the cat.
 - 4) The tea drinker lives in the red house.
 - 5) The bird owner lives in the yellow house.
 - 6) The dog owner drinks coffee.
 - 7) David does not drink tea or milk.
 - 8) Alice drinks tea

Why No On Prop 50
"...In California, back in 2008, we voted to use a bi-partisan commission to redraw Congressional districts, instead of allowing only majority partisan politicians to do so, as they do in Texas. This was ***the Voters First Act***, which went into effect in 2010, a census year.

It is the current law in California.
For those they may have forgotten their civics lessons, a census must be taken every ten years, by law... That's right: 2030. Five years from now. That's the law. And, it STILL has nothing to do with Trump.

Our governor, Gavin Newsom, now wants to not only "temporarily" disband the independent bi-partisan commission, but, he also wants to redistrict for next year, in the middle of a census cycle. Since this is against the law, he is forcing, AT GREAT TAXPAYER EXPENSE, a special election THIS YEAR. November 2025, to be specific.

He, and his fellow politicians have already drawn up their proposed districts. However, ***they will not tell us who it was that drew up the districts.*** How's that for transparency?

This IS gerrymandering. If you answered "No" to my earlier question about gerrymandering, then you should be consistent, and be against **Proposition 50.**

Here is the breakdown:
Current Law: Independent bi-partisan committee draws lines

New Law: Mysterious unnamed biased political group draws lines

Current Law: Draw lines every census (10 years)

New Law: Draw lines now (or, whenever they feel like it)

Current Law: Established commission of specifically named individuals

New Law: "Temporarily" remove established commission of specifically named individuals, and replace their power with partisan unnamed biased politicians (when has the government EVER done anything "temporarily"?)

I've already seen two separate ***commercials that lie*** ...about what Proposition 50 is about, framing it as a retaliation on Trump... Don't be fooled. Trump had nothing to do with Texas, and he has nothing to do with Proposition 50. That is all Newsom, gerrymandering and trying to grab more power away from the people...The two commercials that I have seen, online, as I primarily watch streaming, are completely deceptive and misleading. ***They actually state the OPPOSITE of what Proposition 50 is about...***

Government Bills to Watch (Cont. from Pg.4) SB549&SB782 Make Californians Victims Again?

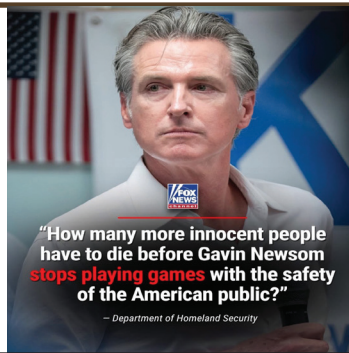

I seriously want to stop talking about Newsom - then he does one more thing to undermine Californians but it would be wrong not to let you know.

Some bills seem to work together for a purpose. He signed these two new bills into law.

One installs a committee with *the right to give land destroyed by fire to be taken for low income housing*. The other makes some fire victims have to pay the full cost to repair homes damaged in the fire...***Do your research!! You may know more!***

73% of California voted for Prop 36 to cut crime, yet Newsom was against it.

Did he really just sign into law AB2943 to weaken what we passed? See P. 4

Chris De Maio and ReformCalifornia.org

As Californians struggle with soaring prices, crime, and a collapsing quality of life, Sacramento politicians have sent another wave of terrible bills to Governor Gavin Newsom's desk.

Carl DeMaio is warning that if signed, these proposals will make life even harder for hardworking Californians—and he's calling on every voter to *demand a veto*.

"Newsom and Sacramento Democrats have lost their minds—and they're hellbent on driving California into the ground," warns DeMaio.

"These bills are a direct attack on Californians—radical, corrupt, and written by politicians who have no clue what real people are going through," says DeMaio. "I'm calling on every Californian to Contact the Governor and demand a veto before these become law." 916-445-2841

His Top Ten Worst Bills on the Governor's Desk:

AB 1207—The Tax-and-Spend Increase extends California's Cap-and Trade Program *"the practical effect is clear: higher utility and fuel prices for years to come..."* AB 1207 is nothing but a massive hidden tax on working families," warns DeMaio. *"Newsom knows this will send energy bills through the roof—and he doesn't care. Veto this or admit you're declaring economic war on Californians."*

SB 301—The Pension Handcuffs Bill

SB 301 amends the County Employees Retirement Law to lose flexibility to limit who receives pension benefits under CERL.

"SB 301 is financial suicide," and "...handcuffs taxpayers to gold-plated pensions forever. Newsom signing this is the same as bankrupting California on purpose."

AB 596—Rigging Ballot Labels deliberately hides who is funding the opposition. "This is election fraud by design," warns De Maio

"If Newsom signs this, he's complicit in rigging our elections."

Medi-Cal in California is Insolvent

With the passage of AB2240, CA Medi-Cal is officially INSOLVENT. It is expensive to fund illegal immigrants' healthcare. Yes, California is the only state in the Union with this issue.

Newsom is now asking for a loan of \$6.2 billion to bail out the program. Assemblyman DeMaio is calling for an audit for California.

The Federal Government is not planning to make up the deficit, so it is either cut citizens from their "healthcare" or raise taxes on Californians.

DeMaio shed light on this reckless spending of government, so the day after his questions the committee removed him.

data after just 60 days, making it harder to solve crimes *“...a gift to criminals...a slap to victims,”*

SB 79—State Takeover of Local Housing
Forces cities to approve high-density housing near transit regardless of local zoning or community plans. (see quote on Front P.)

AB 495 The ‘Let Strangers Seize Children Bill’ Allows strangers to claim guardianship simply by signing a form...“This bill is crazy,” DeMaio says. *“It tears children away from parents and hands them to strangers with zero safeguards. No sane person should support this.”*

(See Sept. Highgrove Happenings)
SB 155—The State-Run Media Bill Allows the Governor to funnel taxpayer money to chosen media outlets across California. *“This is government propaganda—plain and simple,”* warns DeMaio. *“Newsom wants to buy off the press with your money so they cover up his failures.”*

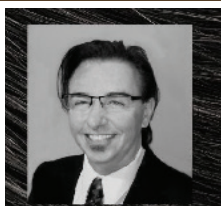

SB 596—Crushing Rural Hospitals
AB 692—Banning Employee Incentives
Prohibits benefits like tuition assistance or signing bonuses if they are contingent on staying in the job. *“This is the dumbest, most anti-worker bill yet,”* says DeMaio.

AB 1071—Giving Criminals New Loopholes
Allows felons to use the Racial Justice Act to overturn sentences based on statistical disparities, regardless of individual facts. *“This bill is a get-out-of-jail free card for predators and violent criminals,”* and makes California even more dangerous. DeMaio says these bills prove once again that Sacramento politicians care more about unions, criminals, and fridge activists than hardworking Californians. **ReformCalifornia.org**

Crypto News

Why talk of crypto in a local paper? Because if you were following the Highgrove Happenings and invested (per Marty Bent's suggestions) in bitcoin; XRP, ETH, gold and silver, you should have made thousands of dollars off of this wisdom - as I have! (I share a rare, off-topic Marty Bent article and link to follow on the next page.)

AB1052 could affect you if you have any crypto to you haven't checked on in a few years because it designates any such crypto as "unclaimed assets" - meaning they are no longer yours - but the government's property.

So, I checked on my XRP and found the \$50 investment increased 90x! I have three years to keep it without needing to check on it again, but this new bill also includes USD unchecked monies(!)

I would call Marty Bent a bitcoin "purist" because that is the only crypto he is in favor of because there is a limited quantity, like gold; and it serves a purpose, like XRP. I wouldn't invest in a crypto sh-t coin because it has nothing to back it up.

This new rule only affects "custodial platforms that manage user accounts" Putting your crypto into private wallets or cold storage are not subject to these seizure rules. (CoinCentral.com).

HIGHGROVE HAPPENINGS

Marty's Bent (for his bitcoin info that made me money and can make you \$\$ too, see: linktr.ee/socalgardenhealth)

Whether you realize it or not, you are in the midst of a spiritual war. You are ALWAYS in the midst of a spiritual war. The battle between Good and Evil is everlasting and there are times when one side overpowers the other. It is pretty clear that we currently find ourselves in a time when Evil is pervasive and objectively overpowering. It is impossible to ignore. If you are aware and observant you can see it in every aspect of our lives.

A mainstream pop culture that promotes promiscuity, fast dating and clout chasing.

A financial system that favors those closest to the

monetary spigots.

Indiscriminate crime, a growing sense of hopelessness and increasing inhumanity.

The last of which has been on a disgusting display over the last six days in the wake of the assassination of Charlie Kirk. The reaction from thousands of individuals who displayed outright revelry at the political murder of a 31 year old father of two has been nauseating. It has literally made me sick to my stomach. We've been reminded that evil very much exists, and even worse, it is much more prevalent than we would like to believe...

Don't the feed the Beast/ [with attention]. Instead, *focus on the good in the world ... The battle is in no way over. It never ends... But God wins.*
