AUG 2026

OFFICIAL UPDATES ON HIGHGROVE AND LAND DEVELOPMENT

Highgrove Community Improvement Project Update

During the last six months of 2025 MAC meetings, the residents of Highgrove got the opportunity to choose what our \$700,000 of funding (from cannabis) could go to. **Supervisor Meding reviewed and approved the following based on the 2025 survey results:**

*Development of a Highgrove Community Investment Plan

*Funding for annual maintenance of community landscaping improvements

*A Railroad Quiet Zone Feasibility Study for the Main Street, Center Street, and Villa Street railroad crossings.

Which leads to many more questions!

Don't we already have CSA 126E in Spring Mountain Ranch and CSA 126 in Highgrove?

These funds include future landscaping on Center Street as well as Mt. Vernon Avenue?

Watch here for details or attend the MAC.

Update on the Quiet Zone: The required railroad crossing arms (rather than putting in an over or underpass) may be much less expensive and more doable (as reported to the MAC.)

What Will Happen to Highgrove's Open Land?

The Riverside County Planning Department has promised Highgrove residents a presentation so we know what may happen to our open land **at the next MAC meeting on Wednesday. September 23rd at 6pm at Highgrove Library.**

Unincorporated county land doesn't have the same zoning protections an incorporated city does.

Our protection comes from participation from neighbors like you!

I'm not saying there's a data center or an apartment complex on the docket right now. What I am saying is that if you care about what happens to the land around you, **Attend the MAC Municipal Advisory Council — the MAC — is where these conversations start, and it's where residents can show up - hopefully - before decisions are made...** waiting until you see bulldozers is waiting too long. If you want a say in how your neighborhood looks like five years from now, **now is the time to pay attention.**

HIGHGROVE HAPPENINGS

Prop 1 on the California November Ballot

Prop 1 is said to help Veterans. I'm all for Supporting Veterans, But did you know only a little over one billion dollars will support Veterans on this eleven billion dollar prop?!

That means about 10%.

This is a new version. The last series of homelessness proposals cost California taxpayers \$37 billion dollars between 2019-2024. Proof on if it really worked to address homelessness is hard to get. I realize it's complicated.

Remember there was a bill put into place to look into that money, but Newsom refused to sign it because, "accountability measures were already in place". Maybe they are. I wasn't able to find any proof that we have fewer homeless.

The third thought to consider is that we have

"Government Officials need to be held accountable." - Supervisor Medina

already spent bond money called Proposition 1 from 2017. The \$4 billion dollar bond we voted for in 2017 went into effect in 2018 and had \$150 million allocated for down payment assistance (= .0375% went to what we were told the money was going to). See **Worth? Cont. P. 5**

I Co-Founded Wikipedia. Now I'm Banned for Life.

The world's largest encyclopedia was overrun by bias and censorship—and pushed me out when I tried to fix it.

By Larry Sanger

"Wikipedia changed the world," writes Larry Sanger. "But its tragedy is that it grew so large that it sucked most of the air out of competing projects and, even as it grew to dominance, it was taken over by ideologues and shills who co-opted it for propaganda purposes." HIGHGROVE HAPPENINGS

Is AI "Burning Books"? I asked AI and it said:

"Project Panama" most likely refers to a codename that surfaced in early 2026 for an Anthropic book-scanning effort — details came out through unsealed documents in the Bartz v. Anthropic author copyright lawsuit. Here's the rundown:

What it was Internal Anthropic documents, unsealed as part of a copyright lawsuit brought by authors, described an internal effort begun in early 2024 to *'destructively scan all the books in the world.'* According to reporting on the court filings, Anthropic spent tens of millions of dollars over about a year buying millions of physical books and cutting off their spines so the pages could be scanned and the text fed into training data for Claude and Anthropic's other models.

One internal planning document, quoted in the reporting, reportedly stated the company didn't want the project publicized.

Legal context This came out through documents in the authors' copyright lawsuit against Anthropic. A judge separately ruled that this kind of book-scanning constituted fair use, and

Anthropic agreed to a \$1.5 billion settlement in August (2025) to resolve the underlying case. The unsealing of these particular internal documents happened later, after a judge's ruling to unseal related filings...

A caveat: since this involves my own creator, I'd point you to the original Washington Post piece for the fullest and most independently-reported account rather than relying solely on my summary here."

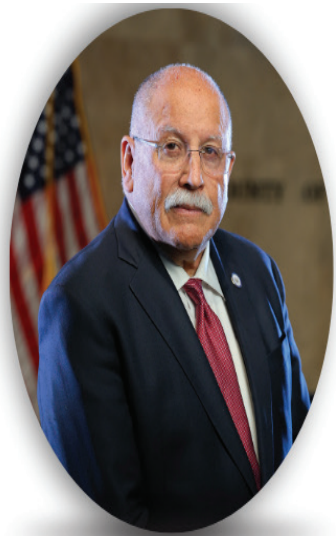

The Degree is Expensive But Skills are Missing

Peter St. Onge's claims one-in-five graduates can read. OECD-based reporting says it is less. US college students are at approximately 14% for reading at that level and above 15% for math.

It's not just literacy falling, but math among University educated Americans. UC San Diego found the number of *incoming students below high-school math standards increased nearly 30x* from 2020-2025. Students get high grades while competence deteriorates.

AI makes comprehension, clear writing, first principles reasoning, virtue, and independent judgment more valuable. A diploma cannot counterfeit those skills forever." - Marty Bent in TFTC

Partnership Launches First Community Cleanup Effort in Highgrove

Jose Medina,
Riverside County
Supervisor, District 1
Office

Phone: 951-955-1010

Email:

District1@Rivco.org

On Saturday, June 13, 2026, the first Highgrove Community Cleanup officially kicked off near Iowa Avenue and Villa Street, marking an important investment in the ongoing effort to improve and revitalize the Highgrove community.

Led by Riverside County Supervisor Jose Medina's District 1 Office, the cleanup was made possible through a strong partnership with the Greater Riverside Chambers of Commerce and Keep Riverside Clean & Beautiful, organizations committed to supporting healthier and stronger communities throughout Riverside County.

By the end of the cleanup effort, the partnership had made an immediate impact:

- **49 volunteers participated**
- **4 cleanup sites addressed**
- **1,785 pounds of litter removed**
- **5,600 pounds of green waste collected**
- **620 cigarette butts collected**

Supervisor Jose Medina emphasized that this effort reflects a broader commitment to investing in communities that deserve long-term attention and resources.

"Real community progress happens when we invest not only in infrastructure, but in people and partnerships committed to creating change. The work accomplished in Highgrove shows what can happen when organizations and local government come together with a shared commitment to building cleaner, stronger communities for everyone."

— **Supervisor Jose Medina**

This cleanup marks the beginning of continued efforts focused on beautification, public safety, and strengthening community investment in Highgrove.

Upcoming Highgrove MAC Meeting – July 22, 2026

Residents are encouraged to attend the next **Highgrove Municipal Advisory Council (MAC) Meeting on Wednesday, July 22, 2026.**

This month's guest speaker will be representatives from the Riverside Transit Agency (RTA), who will provide information and answer questions regarding public transit routes, bus stop locations, and transportation services available to Highgrove residents.

Community participation remains an important part of shaping the future of Highgrove, and residents are encouraged to attend, stay informed, and continue engaging in efforts that strengthen the neighborhood.

Jose Medina

Riverside County Supervisor, District 1

Prop 1 - A Bond is Worth? (Cont. from P. 2)

Most went to "multi-family housing" Have you seen *how many empty apartments are around Riverside?* Do we really need more?

Bottom Line: **BONDS = HIGHER TAXES**
If your property tax has gone up recently, it is because voters voted in new bond measures.

Our property tax is up a good \$500 – when we are supposed to be protected from property taxes going up because of Prop 13!

MAKE SURE your taxes going up again is worth what you're spending money on
or vote NO on Bond issues!!

stan.store/cynthia_17

My Current Favorite Tea with Benefits (pt. 1)

You are probably familiar with *Hibiscus Tea*, aka jamaica in Spanish. It is refreshing and cooling on a hot summer day.

But did you know it has health benefits as well? Research shows it can **reduce blood pressure** by 10% - as much as some BP meds!

It is a source of polyphenols or antioxidants that protect the inside of the blood vessels from damage (proof is the naturally beautiful color!)

Other cardiovascular herbs, with a similar action, include:

"Hawthorn and Garlic. The bio-flavonoid containing herbs such as Ginkgo, Buckwheat and Lime Blossom are especially useful for strengthening blood vessels."
- from the book, The Elements of Herbalism by David Hoffman

Pictured is a *Hibiscus, Rosa sinensis* plant and flower. The calyx used for tea, is red, not green.

AUGUST HEAT, COOL HEARTS & COMMUNITY SPIRIT

Hello Highgrove!

If July felt hot... August is here to remind us who's really in charge! ☔ With some of the warmest days of the year ahead, now is the perfect time to stay hydrated, check in on friends and neighbors, and take advantage of cool places around the community.

Remember, The Norton Younglove Community Center is a designated Cool Center, offering a safe, air-conditioned place to escape the summer heat. Whether you want to relax, read a book, visit with friends, or simply cool down for a while, our doors

are open and you're always welcome. Let's beat the heat together while enjoying another month of community, friendship, and fun!

☑ Beat the Heat at Our Cool Center. Everyone is welcome!

Extreme heat can be dangerous, especially for older adults, young children, and those with health conditions. Stop by The Norton to:

- ❄️ Cool off in our air-conditioned facility
- 💧 Stay hydrated
- 👥 Visit with friends and neighbors
- 🛋️ Take a break from the summer sun

HIGHGROVE HAPPENINGS

Imagine if I overlooked how deeply I am needed here because the work in front of me looked too ordinary to be important

Perspective will shift how we experience the entirety of our lives.

Two people could be placed in the same exact circumstances and live completely different realities simply because of the way they choose to perceive themselves and their environment.

Life isn't happening to us as much as we get to determine the life we are willing to create.

The most powerful gift is your mindset.

Use it to create abundance."
